## Bloom Chair

I enjoy turning trash into treasure! I grew up hunting for unique finds at yard sales and thrift stores with my mother. I really love creating costumes, especially for events with my family. I have a amazing five year old son and a super rad fiancé. We love living in Sonora, the beautiful nature and community we are a part of!

My chair is a combination of some of my favorite things, up-cycled materials, color and flowers! I created it using cardboard boxes from my recycling pile, some melted plastic and a bundle of silk stems from a thrift store. This was my first time using a staple gun and I had a lot of fun making this. I also hand painted all the petals.

I have grown rather attached to this piece, so who ever gets it better let me come visit it! Haha!
