Provide a summary of the project*

Include a clear and concise description of the project emphasizing the objectives, the need for the project and the plan for execution of the project.

Describe how your project directly engages communities in the bottom quartile of the California Healthy Place Index*

The California Healthy Places Index, developed by the Public Health Alliance of Southern California and visualized by Axis Maps, is a powerful tool to explore the community conditions that impact life expectancy. The HPI helps prioritize public and private investments, resources, and programs in neighborhoods where they are needed most.

This data is used by community leaders, policymakers, academics and other stakeholders to compare the health and well-being of communities, identify health inequities and quantify the factors that shape health.

How does your project accomplish one or more of the program focus areas?*

Provide a timeline for the project and detail all proposed activities during each phase as well as any/all communities in which each phase occurs. *

Your timeline should clearly define the four phases:

1. *Project Planning*
2. *Production/Creation*
3. *Public Presentation / Distribution*
4. *Evaluation*

It should also be made clear the physical locations/communities where each phase will be occurring.

What are the goals of your project? What are the expected outcomes?*

Provide a brief biography for key individuals involved in this project. Include name, title, whether they will be supported by the Heartland Grant, relevant experience as it pertains to the project and role within the proposed activities.*

Describe who and how many your project will serve, including ages and age ranges. List all locations being served for the project.*
